Dear Admission committee,

It is my great pleasure to recommend Yared Yimenu whom I have seen excel academically all through his junior and senior highschool. I have known Yared as his physics teacher and science and technology club advisor since he has joined our school.

As Yared's teacher, I witnessed his extraordinary ability to quickly understand advanced physics concept beyond his highschool curriculum. He once told me that he was very enthusiastic about different concepts like quantum physics and relativity which helped him think big and relate what he learned in class to a real world. Yared is perspective, sharp, quick individual with high aptitude for maths and science. His competitiveness is not only linked to STEM, but also to other subjects. Last year, Yared stood first in the sub-city in the civics question and answer competition, and then he stood third in all schools in Addis Ababa in the same competition. He is an academic hustler who works hard and achieves high results.

Throughout the year Yared was an active participant in our class discussion and he always supported his peers. His caring nature and personality allows him to work well with others in a team setting. He always respects other's opinions even when they differ from his own. He is exceptionally a strong group leader who help and work well with his peers. He always amazed me with his ability to break down complex tasks.

Apart from academics, Yared possesses many other qualities that makes him a good person. He is very friendly and would help and support his friends with all academics and personal problems. He is self motivated student who knows what he wants from life. His compassion and charisma are beyond his years and he is well-loved by his peers as well as all those who had the the pleasure of teaching him.

An important quality that I witnessed when teaching Yared was he was able to handle all of his academic challenges. Yared does not hesitate to ask his teacher if he finds a certain concept difficult. He come with a pen and a notebook for further explanation of the concept. Whenever he find such a challenge he work and study hard till he master the concept completely. I always appreciate his integrity and principles.

The way Yared analyze and visualize information is one of his unique personal quality that makes him stand out. Whenever he is asked to explain and present in front of the class, he prepare in advance and come up with exceptional presentation. As a prove of his capability in all subjects, he has scored remarkable result in each subject. He stood first from his class from grade 9 to grade 11. Also his rank in grade 11 is first from the entire section. He has a great potential for his bright future. Regarding his interest, he told me he has Passion to be an Astrophysicists and Mechanical Engineer.

Yared likewise dominates in extracurricular activities and club participations. Science and technology club, Charity club, ICT club, Red cross club, Maths club are among the clubs he regularly participate. He tries his best to bring something new in these clubs.

He carries my absolute strongest recommendation. Yared's endless curiosity, combined with his willingness to take risk, leads me to believe there will be no limit to his growth and achievements in college and beyond.

If you have any questions or concerns, please don't hesitate to contact me at Yodaheasefatemune@gmail.com

Sincerely,

Yodahe Zewude Assefa

Physics Teacher,
