TO WHOM IT MAY CONCERN

It is with great pleasure that I write this letter of recommendation for Euael Adane Nigus. I have known Euael since 2020 as his instructor for the course biology, and as an advisor for the research he and his team conducted in Beteseb academy, Ethiopia, during pre-college studies.

In the time I spent as his teacher I have come to know Euael as a devoted and diligent student. Euael is a perceptive, sharp, quick individual with a high aptitude for science. He is driven to understand how things work beyond what's given to him in class. He took every task handed to him seriously and always delivered results with staggering amounts of meticulousness. He is admired by his classmates as he creates a welcoming environment for everyone wherever he is. Euael is known around campus for his genial and outgoing personality and of course his high academic performance. He has demonstrated excellence in all that he puts his mind to. Euael's endless curiosity, combined with his willingness to take risks, leads me to believe there will be no limit to his growth and achievements in college and beyond. He is a talented, intelligent student with the charisma, confidence, strong values, and respect for others to make a huge difference in the world around him. He was a pleasure to have in class, and his positive attitude and belief in himself, is an immensely admirable asset. I'm confident that he will continue to demonstrate the same diligence, perseverance, and optimism that he showed myself and his peers. I highly recommend Euael for admission to your undergraduate program and would appreciate your most favorable consideration to his application.

Sincerely,

Mr. Simon Solomon (MSc)
