

Subject: Motivation Letter for Admission to Economics and Data Science Program

Dear Admissions Committee,

I am writing to express my strong motivation and sincere interest in the Economics and Data Science program at the University of Cassino. The intersection of economics and data science fascinates me, and I believe this program will equip me with the skills and knowledge needed to excel in these dynamic fields.

I am passionate about economics and its ability to explain market dynamics and guide decision-making. However, I recognize the increasing importance of data-driven analysis in today's world. By gaining expertise in statistical analysis, machine learning, programming, and data visualization, I aim to contribute to evidence-based economic research and policy-making.

The academic excellence and research-oriented environment of the University of Cassino make it an ideal institution for my educational journey. I am excited to collaborate with fellow students, engage in cutting-edge research, and contribute to innovative solutions for economic challenges.

Thank you for considering my application. I eagerly look forward to the opportunity to join the esteemed academic community at the University of Cassino.

Sincerely,

Abenezer Adefris
