To Whom It May Concern

Re: English Language Competence

This is to certify that Nuhamin Yoseph is our student; she has been at Glory Secondary School from grade 9-11 for 3 academic years. According to the Ethiopian ministry of education curriculum, in the lower grade, (grades 1-6), English is given as a subject, while in the junior and secondary schools, therefore grades 7-12 English is the medium of instruction, and all subjects except Amharic are given in their language.

Thus, Nuhamin, as a student who was attending grade 11 in our secondary school is learning the various subjects in the English language. I therefore will like to confirm that; Nuhamin is an excellent student in both written and oral English and will not face difficulties in communicating and understanding courses that would be offered in English at the tertiary levels.

While writing their testimony, I am wishing her all the best in all her future academic studies.

Sincerely yours,

Sisay Abera

Principal
