LETTER OF RECOMMENDATION ቀን

It is my pleasure to recommend Yordanos Deribe Bekele, who I taught in my 11th and 12th grade math class. Yordanos demonstrated tremendous effort and growth throughout the year and brought a great energy to class. He has the combination of a positive attitude and the belief that he can always improve that's rare in a high school student, but so essential to the learning process. I am confident that he will continue to display the same commitment and diligence in everything he does. I highly recommend Yordanos for admission to your institutions.

Yordanos told me on several occasions that all the numbers and variables make his mind go busy. Yordanos did, in fact, struggle to comprehend the material at the beginning of the year, but in response to this is what really struck me. Where so many others have given up, Yordanos took on this class as a welcome challenge. He stayed after school for extra help, got extra tutoring at the nearby school, and asked questions in and out of class. Due to all his hard work, Yordanos not only raised his grades, but he also inspired some of his classmates to stay after for extra help, as well. Yordanos truly demonstrated a growth mindset, and he inspired his peers to adopt that valuable perspective, too. Yordanos helped contribute to our classroom environment as one where all students can feel supported and able to ask questions. As a teacher, it is incredibly fulfilling to witness a student make this kind of academic and personal progress.

Yordanos is a trustworthy, reliable, good-humoured student and friend who support others in and out of the classroom. He was a pleasure to have in class, and his positive attitude and belief in him, even in the face of difficulty, is an immensely admirable asset. I'm confident that he will continue to demonstrate the same diligence, perseverance, and optimism that he showed me and his peers. I highly recommend Yordanos for admission to your undergraduate program.

Sincerely,

Abebe Eshetu Birhanu
