## **TO WHOM IT MAY CONCERN**

It is my pleasure to recommend Euael Adane who I taught in my English class in grade 10 and 11. He demonstrated tremendous effort and growth throughout the year and brought a great energy to class. He has that combination of a positive attitude and the belief that he can always improve that's rare in a high school student, but so essential to the learning process. I am confident that he will continue to display the same commitment and diligence in everything he does. I highly recommend him for admission to your school.

Euael would not only describe himself as a science student. He has told me on several occasions that all the concepts of writing and critical reading make him mind go fuzzy. He did, in fact, struggle to comprehend the literary texts at the beginning of the year, but his response to this is what really struck me. Where so many others have given up, he took on this class as a welcome challenge. Due to all his hard work, Euael not only raised his grades, but he also inspired some of his classmates to stay after for extra help, as well. He truly demonstrated a growth mindset, and he inspired his peers to adopt that valuable perspective, too. He contributes to our classroom environment as one where all students can feel supported and able to ask questions.

Euael strong belief in his ability to acquire new skills and improve through practice was likely shaped by his year as essay writer. As a teacher, it is incredibly fulfilling to witness a student make this kind of academic and personal progress.

Euael is a trustworthy, reliable, good-humored student and friend who support others in and out of the classroom. He was a pleasure to have in class, and his positive attitude and belief in him, even in the face of difficulty, is an immensely admirable asset. I am confident that he will continue to demonstrate the same diligence, perseverance, and optimism that he showed me and his peers. I highly recommend him for admission to your school.
