Re: Recommendation Letter

I am writing this letter of recommendation in support of my student named Yordanos Deribe Bekele, I came to know the aforementioned student during the 2017/18 to 2019/20 academic year at Andarge academy when the happened to grade 11&12 students. At present, I am also teaching the student in the ongoing academic year (2019/20) at grade 12 level.

In the classroom, Yordanos is always attentive and participative. He has a way of balancing his seriousness to his task and his easy going nature. His work is always comprehensive and fun to experience. He has tendency to go above and beyond to accomplish set tasks, and I am always impress how eager he is to take on challenges. His intelligent approach to tackling problems and find solution is always inspiring.

In our curriculum, students have to choose natural science or social science stream when they reach the junior year of their high school education. And as a social science student, I have seen how deeply Yordanos is interested in number of sub skills of the language such as lessons of grammar, phonetics, vocabulary etc. He is actively engaged in the natural science clubs. He also becomes even more energetic when debate and discussions center on natural concepts.

Although I have not worked with him on extracurricular activities outside of the classroom, I have seen the work he has done in the different school clubs, and his imitative to collaborate and work with others as well as independently towards great success. He is very well liked and admired by his peers and his teachers and this is a testament to his team work and adaptability nature.

Given his level of intelligence and personality added to his passion for the natural science, I have no doubt that he will be successful in the field of study that he is going to join. He is one of my students, who I expect a great success in future once he is given the chance.

Therefore, I give my strong recommendation to Yordanos Deribe that your university accept him as one of your student. I am sure, the university will be proud by his success.

I thank you for your notable consideration in advance!
