Subject: Recommendation letter

It gives me an immense pleasure to write a recommendation letter to Makida Tsige for undergraduate university study. I have known Makida when she was my student for three consecutive chemistry classes in St.D. CSPS. She is a decent committed, motivated, and outstanding student with a great aspiration for knowledge and skills. Regarding her relation with her classmates, other students and teachers I dare to say she's sociable, respectful, and responsible in all aspect

Throughout the years I have thought her, I have observed readiness quality and attentive work habit which helped her to raise her grades and be very much mature for her age. Moreover she has shown remarkable interest in actively participating in the class. Once she begins any activity, she works with precision and purpose.

Makida Has a charismatic personality, cooperativeness and reediness to take a problem or any work that comes before her. I am confident she will continue to display the same commitment and dillgence in everything she puts her mind on. She has proven herself to be hard worker who is ready to take on any task no matter how late or small. I believe that accepting Makida into your community will benefit you greatly.

I strongly encourage you to take a consider Makida for your program, as I am sure you will find her as an asset to your school. If you have any questions regarding her application, you may contact me via email at bekelearega1@gmail.com

Sincerely,
Bekeke Arega,
Chemistry teacher.
