## KOKEBE TSIBAH SECONDARY AND PREPARATORY SCHOOL 2022 GC

### RECOMMENDATION LETTER

It gives me a great pleasure to recommend student Gedion Daniel whom I have teachin Grade 11 & 12 at Kokebe Tsibah Secondary & Preparatory School.

He is one of my best student who have showing an excellent performance in ICT course including C++, HTML, MS office, and other Software developing courses. Also he is a really competitive student with a bright future. What makes him unique from his peers is that he is really determined and he is always willing to participate in activities other than academic which can boost his potential and expand his skills. He always wants to take the lead so that he can contribute the most and always tries to accomplish tasks to the greatest quality and to deliver on time specified. He has a quality of managing tight situations by making logical and rational decisions for the best outcome. He is always willing to help students that need assistance, either in the classroom or in ICT laboratory.

In addition to intelligence and perseverance, Gedion Daniel is a really nice person to work with. He is mature and up-beat takes responsibility for his decisions has a terrific smile and energetic personality. I feel this additional "non-academic" qualities are nearly as important as scholarly abilities.

I regret to inform you that the educational system in Ethiopia focuses more on academics and this does not give much space for students to expand other essential skills like leadership. To fully reach his peak, Gedion Daniel needs more advance institutions which cannot be provided by Ethiopian educational system. I believe he can be of an asset where ever he goes as he can adapt to changing situations and overcome obstacles he faces.

*Therefore I strongly recommend student Gedion Daniel to be one of Prospective student whom you always be proud of! Wish him a better future!*
